

An Cianfhoghlaim

Foghlaim Chumaisc/Blended Learning

Tá éiteas dalta-lárnach againn i Meánscoil Gharman agus cuireann an foghlaim chumaisc leis an éiteas seo. Úsáideann múinteoirí meascán de mhodhanna múinteoireachta, áiseanna digiteach in a measc. Is í Microsoft 365 don oideachas an t-árdán atá in úsáid ag an scoil. Le linn aon dúnadh de bharr an coróinvíreas is anseo a bheidh an obair á roinnt. Tugtar ríomphost scoile do gach dalta chun an t-árdán seo a úsáid. Ní ghlactar le h-úsáid aon ríomphost eile. Bíonn traenáil ag gach dalta ar conas Microsoft 365 a úsáid agus is slí í chun cumarsáid oscailte a choimeád le múinteoirí. Nuair atá an scoil oscailte go hiomlán úsáidtear modhanna digiteacha chun scileanna foghlaim a spreagadh, mar aon le nótaí agus físeanna breise a chur ar fáil chun tacú le hobair neamhspleách an dalta.

We have a student centred ethos in Meánscoil Gharman and a blended learning approach, between face to face and digital platforms, adds greatly to this ethos. Teachers use a variety of teaching techniques including digital learning. Microsoft 365 is used in the school. For any school closure due to a Public Health Emergency, this is where students will receive their work and communicate with teachers. Every student receives training on the use of Microsoft 365 and is given a school email for use on the system. When the school is fully open, Microsoft 365 provides a place for students to develop their independent learning skills. Teachers use the platform to provide additional notes, tasks and videos when relevant.

Teagasc agus Foghlaim ar líne/Learning and Teaching Online

Is í ‘Barr Feabhais trí Ghaeilge’ sprioc na scoile. Tacaíonn an córas digiteach le múinteoirí freastal ar daltaí le ard cumas. Is deis í síneadh den obair ranga a chur ar fáil taobh le taobh le gnáth forbairt an dalta. Spreagtar scileanna foghlaim neamhspleách tríd úsáid an chóras mar aon le muinín sa dhalta agus tuiscint ar a c(h)uid cumas féin.

Excellence through Irish is the goal within the school. Using a digital learning tool such as Microsoft 365 allows for teachers to better cater to students of high ability. The platform can be used to provide extension work alongside the usual classwork to further develop students understanding of concepts. This also

develops transferable skills such as independence, confidence and an ability to self-evaluate their learning.
